

National Core Indicators

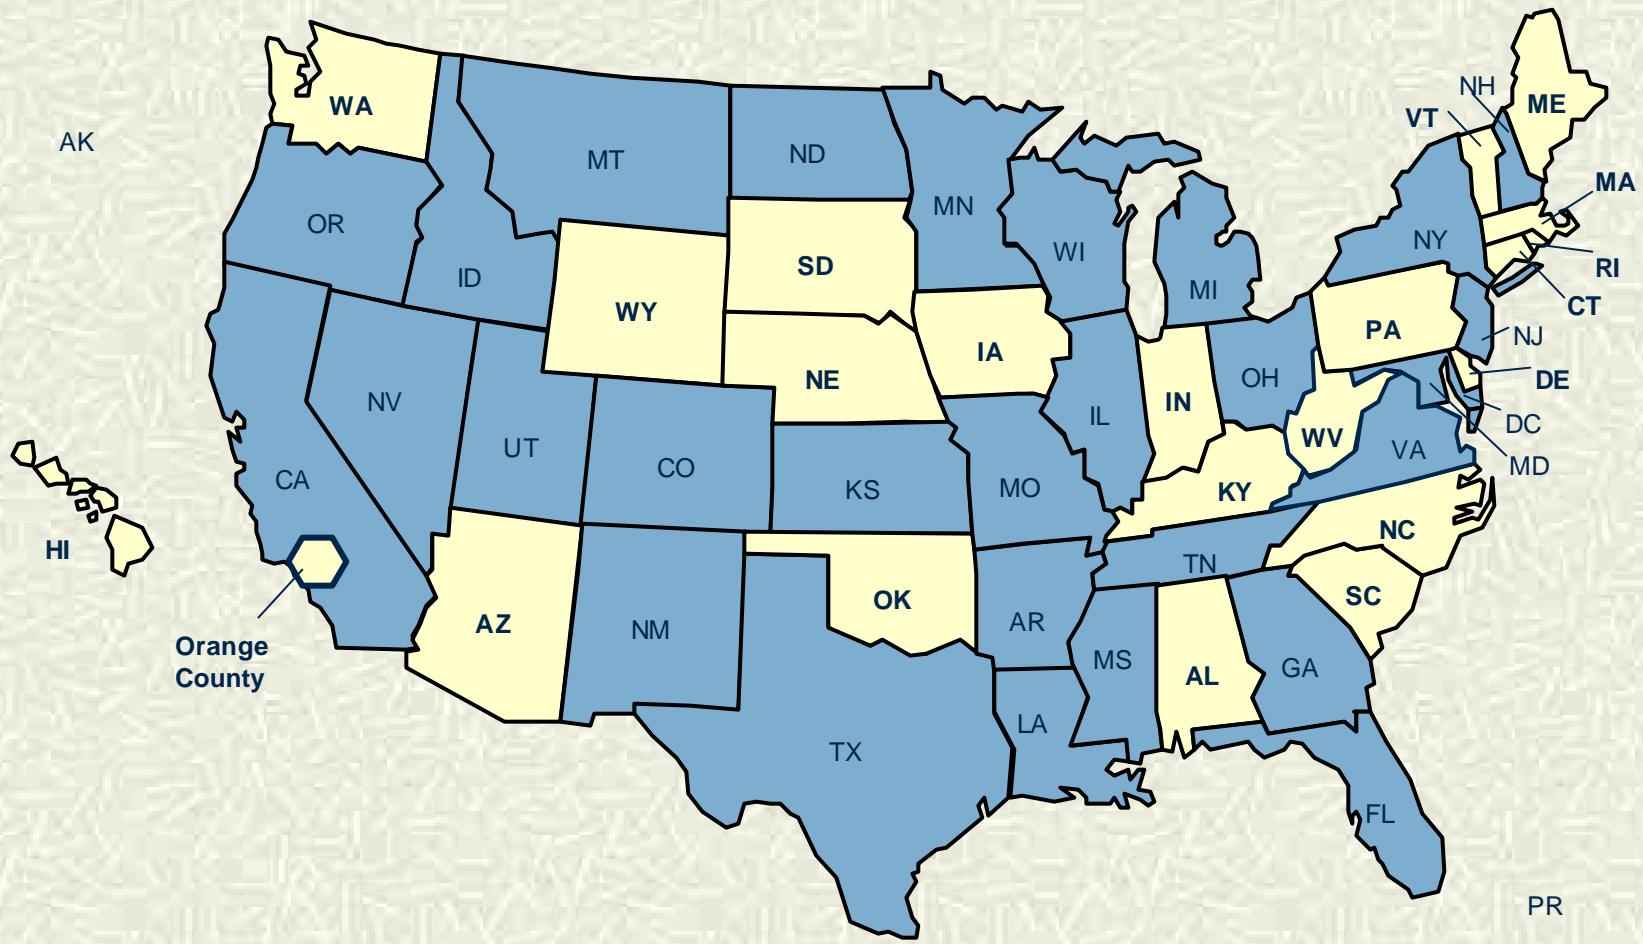

Update on National Performance Measures

Val Bradley & Sarah Taub
Human Services Research Institute

Participating NCI States

What has NCI Accomplished?

- # Nationally recognized set of performance and outcome indicators for developmental disabilities service systems
 - # Reliable data collection methods & tools (consumer & family surveys, provider survey, system data)
 - # Baseline and trend data at the state & national level
-

Where does NCI fit in?

- # One core component of state Quality Management systems
- # Main process for measuring consumer and family satisfaction
- # Integration of information is the key (many QA systems are fragmented)
- # Increasing interest in using NCI to measure provider performance

How is NCI data used?

- # Setting goals and strategic planning
- # Setting priorities for quality improvement, Quality Management plans
- # Budget requests to Governor and legislators
- # Helps shape data reporting systems (e.g., incidents, mortality)
- # Stakeholder advisory committees (Quality Councils)

How are results disseminated?

- # Reports of state results vs. national results posted on websites
- # Presentations to staff, providers, community
- # Summaries shared with families who filled out surveys (AZ)
- # Simplified version of Consumer Survey report for self-advocate (VT)

Trend Analysis

- # Beginning to look at trends over past three years
- # Five states collected Consumer Survey data annually for three years
 - Connecticut
 - Kentucky
 - North Carolina
 - Pennsylvania
 - Rhode Island

CM helps get what person needs...

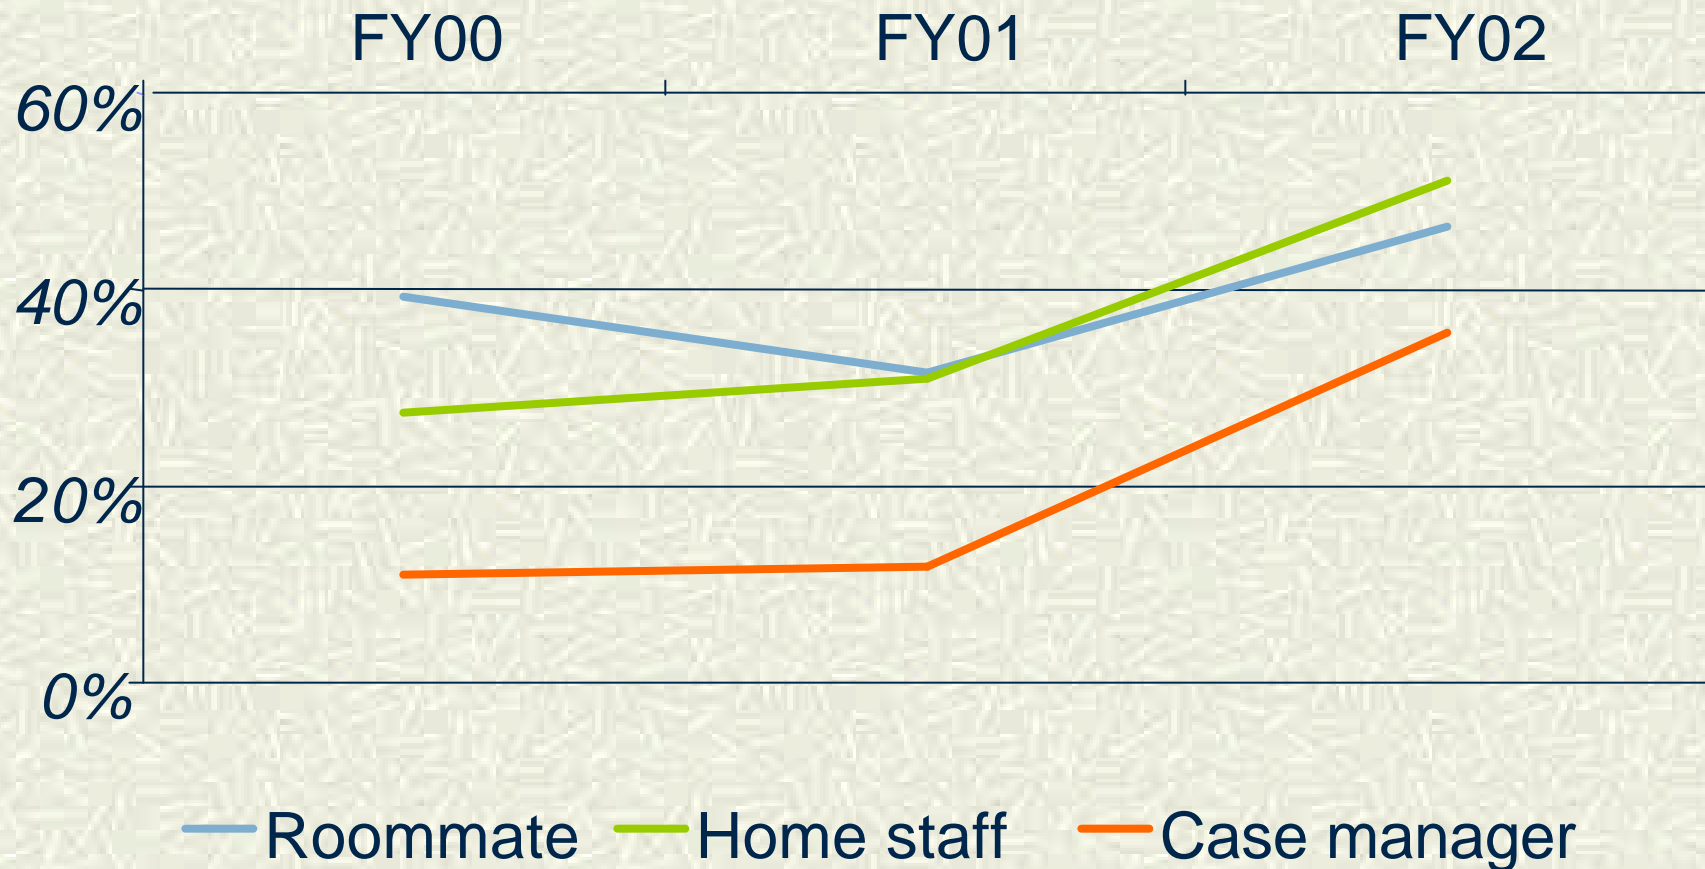

Person is satisfied with home...

Person had input in choosing...

Staff Stability

How have states expanded NCI?

- # Case management supplement (WA, HI, MA, IN, WY) and service coordinator turnover (RCOC)
 - # Health status supplement (NC) and additional health data (HI)
 - # Early start (0-3) survey (RCOC)
 - # Modified Consumer Survey for people with chronic mental illness (IA)
-

Possible areas of development

- # Questions about self-directed services
 - # Increased involvement of self-advocates
 - # Provider capacity & performance measures
 - # Adapting survey for people with different communication styles
 - # Direct support worker salaries, benefits, credentialing
-

Next steps...

- # Major overhaul of NCI website
- # Includes links to state websites, reports, presentations, etc.
- # Development of Core Health Status Supplement, pending CDC grant award
- # Survey revisions will be completed by beginning of calendar year

For More Information

- # Final Reports for Phase IV (FY2002) are available on HSRI's website: www.hsri.org
- # Contact: staub@hsri.org
